

October 2025

Dear Parent/Carer

As part of the Product Design course, students are required to conduct a series of design and make projects. An important part of the coursework is the practical outcome, which we hope students are proud of and would like to take home. During the course of Year 10, students will be making a variety of practical projects to support their learning.

In order to allow students to take their practical work home, we must ask for a contribution of £5 towards the cost of materials. If we do not receive this contribution your child will still be able to complete their project, but they will not be able to take their project home, as we may have to recycle the materials.

Please login to ParentPay to make a payment.

Please don't hesitate to contact me if you have any questions or concerns regarding this.

Yours sincerely

Miss G Kidd
