

January 2026

Dear Parent/Carer

As part of our second immersion day on **Tuesday 3 February**, the majority of Year 10 will be involved in a day of computer skills development.

As your child already takes either Computer Science or Creative iMedia as a qualification, the development of these skills is already covered as part of their curriculum. As such, we will be using this day to take your child on an enrichment trip to the **National Videogame Museum** in Sheffield.

As part of this day, students will be exploring how and why videogames are made, as well as looking at the history of gaming. They will be taking part in practical workshops, as well as having the opportunity to play a range of videogames from across time.

Students will need to arrive at school for **8.30am** and we will be leaving school at 9.00am, returning at approximately 3.00pm. Students do not need to wear school uniform but they will need to bring a packed lunch and drinks for the day. **Please be aware that we have students who may be participating in this trip who have a serious nut allergy. Please avoid giving your son/daughter bagged nuts or products with a nut content, as even the smell can cause these students anxiety.** If your child is in receipt of free school meals and requires a packed lunch on the day, please order one via ParentPay.

There is no cost for this trip. However, please login to Parentpay to give permission for your child to attend. Any students who do not attend the trip will be expected in school as normal and will be given classroom based activities to do.

Yours sincerely

Mr J Chambers
CTL Computing and Business
