

March 2026

Dear Parent/Carer

Today our Year 11 students received their March mock examination results. As part of preparing them for the summer, we distributed these results during Period 5 in a format that is similar to how they will receive their GCSE results in August. This experience is designed not only to familiarise students with the process but also to help them reflect meaningfully on their progress so far.

While mock examination results are incredibly important, we have placed particular emphasis on what those results would mean for each student's Post-16 destination. Our goal is to ensure that every student is able to move confidently toward the next stage of their education or training. Their chosen pathways, whether that's HGSA Sixth Form, college, apprenticeships, or another route, should act as a strong motivating factor as we enter the final phase before the GCSE examinations. The emphasis this afternoon is that there is still time to improve upon March mock examination performance, with the right investment of independent study.

Over the coming months, we will continue to support students with intervention sessions, with our third wave of intervention starting after the Easter break. Further details regarding student allocations to this will be shared later this week. As has been our message for some time now, your encouragement at home is equally valuable, and we appreciate everything you do to help your child engage with independent study during this crucial period.

If you have any questions about the mock results, revision strategies, or Post-16 destinations, please do not hesitate to get in touch with me. Working together, we can ensure that every student approaches the summer examinations feeling prepared, confident, and motivated to achieve their best.

Thank you for your continued support.

Yours sincerely

Mr D Bentley
Achievement Leader - Year 11
